April 2012 Waste Management Price Increase

Dear Customer,

As you are aware each year in April the Government imposes an increase on Landfill Tax.

As a Materials Recycling Facility operator Mytum & Selby endeavour to divert wastes from landfill on behalf of our customers this enables us to show cost savings against landfill prices and boost your environmental profile. Unfortunately the mechanical processing and transportation of wastes and recyclable materials also increases at this time.

In order for Mytum & Selby to offer the same sustainable and cost effective alternatives to landfill it is impossible for us to absorb the increased operating costs and as such we have to review our prices from April 2012.

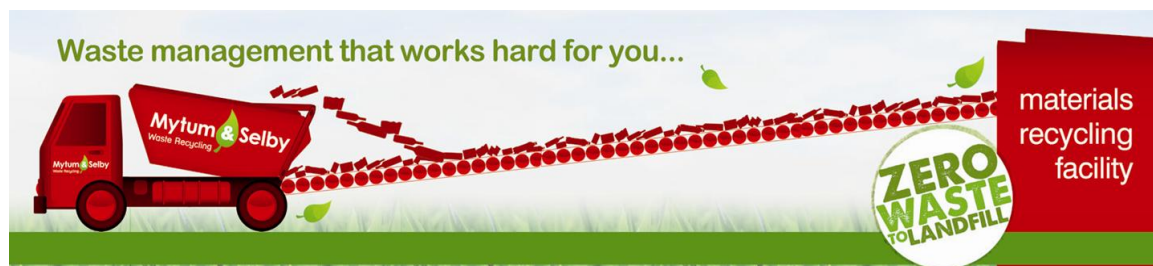

We thank you for your co-operation with this matter and value your continued custom.

Kind Regards

The Waste & Recycling Team

Mytum & Selby Waste Recycling Ltd.
